

FOOD SECURITY

OVERVIEW

The Community Poverty Reduction “Know How” Project survey was conducted in August 2021 in the Tavush, Lori, and Shirak Marzes (2376 respondents in total). Approximately 98% of interviewees responded to these questions, of which 45% were from the four cities shown in the chart.

WITHIN THE LAST 12 MONTHS

DID YOU EAT LESS THAN YOU WANTED?

~ 41% **yes**

DID YOU HAVE TO SKIP A MEAL?

~ 31% **yes**

In 2015, 12.83% of Armenians were classified as multidimensionally poor and living under the upper national poverty line. This statistic was taken from the World Bank Report “The many faces of Deprivation: A Multidimensional Approach to Poverty in Armenia” (2017). It is the most recent national statistic related to the information shown here.
