

# FOOD SECURITY

## PART 3

WITHIN THE LAST 12 MONTHS

WERE YOU UNABLE TO EAT HEALTHY AND NUTRITIOUS FOOD?

~ 53% **yes**

WITHIN THE LAST 12 MONTHS

WERE YOU ONLY ABLE TO EAT A FEW KINDS OF FOOD?

~ 62% **yes**

### OVERVIEW

Within the Marzes of Tavush, Lori, and Shirak, a survey for the Community Poverty Reduction “Know How” Project was conducted in August 2021 and had 2376 respondents participate in total.

According to the World Bank Report "The many faces of Deprivation: A Multidimensional Approach to Poverty in Armenia" (2017), 16.27% of Armenia's population lives above the upper national poverty line, but in multidimensionally poor household. Therefore, these households are more vulnerable to changes which can decrease their quality of life.

### UNABLE TO EAT HEALTHY AND NUTRITIOUS FOOD
